

## NON-METALLIC GASKET

NAME	K.FUJI NO.	DESCRIPTION	
Asbestos Sheet Punched Gasket	4100	We supply not only our own products but also those from the various manufactures to satisfy the varied need of customers, as well as custom items based on their spec.	
Non-Asbestos Punched Gasket	4800		
Graphite Sheet Punched Gasket	5000	High quality sealing material made of soft, elastic, and pure graphite. (UCAR: GHL, GHE, GHR, GHP, GHW etc.)	
Graphite Molded Packing	5500	100% pure graphite is die-formed into ring type. Suitable in wide range of temperature and pressure.	
Rubber Sheet Punched Gasket	4200	Various types of rubber sheets. Cut gaskets are also available. (NR, NBR, SBR, CR, EPDM, SILICONE, VITON etc.)	
PTFE Sheet Punched Gasket	4400	Polytetrafluoroethylene resin is formed into sheet.	Temp. : -200 ~ 260 °C
PTFE Envelope -Split type	4410		Standard type. PTFE disc slit in center from outside.
PTFE Envelope -Milled type	4411		PTFE sheet machine-cut to envelope form. Smooth flow of inside fluid is obtained.
PTFE Envelope -Shield type	4412		Jacketed type. PTFE tape heat sealed at one joint. Non-circular shape can be made.

### INSULATION KIT

Flange insulation sets are designed to assist in combatting the effects of corrosion found in flanged pipe systems, by offering precision made components from a range of proven high quality materials, as a long term solution to this problem.

- Type 'E'- Full Face
- Type 'F'- Rasied Face
- Type 'D'- Ring Groove
